Aria® Metal Hardware

The Aria® Metal Hardware line offers trend-right designer hardware collections across two pole diameter options providing a beautiful range of finial designs and a full line of coordinating accessories.

- The Smart Home Collection 1 3/8" H-Rail Traverse with Slim Line Motor combines motorized technology with the beauty of Aria Metal Hardware, integrating smart solutions designed for residential and commercial environments.
- The 1 3/8" H-Rail Smart Home Collection and Baton Draw options coordinate with the 1 3/8" Antiquities collection, combining innovative functionality with layered, multi-pass finial and finish options.
- The 1 1/8" diameter Baton Draw H-Rail, Atelier, Artisan, Abode and French Return collections are designed to work seamlessly with each other, allowing you to create customized mix-and-match decorative hardware designs and solutions.

automated 1 3/8" H-Rail traverse

automated h-rail traverse

The Smart Home Collection Automated 1 3/8" H-Rail Traverse combines motorized technology with the beauty of AriA® Metal Hardware, integrating Smart Home Solutions designed for residential and commercial environments.

The slim line motor is designed to install seamlessly behind the drapery panel with quiet start / stop operation, the ability to easily charge without having to remove the motor and up to 500 open and close cycles per charge, providing the ultimate integrated functionality without compromising the look of your window treatment.

See pages 5 - 9.

Coordinates with 1 3/8" Antiquities Collection finials and finishes on pages 15 - 19.

Smart Home controls

The Smart Home Collection Wi-Fi Hub with HomeKit and App integration allow draperies to be controlled directly from a smartphone or integrated device while at home or away. Available in the Apple® App store or Google Play™.

As an alternative, remotes and wall switches allow for individual, group and all control for a customized solution with 5 or 15 channel options, including the PushPRO with smart home features.

See page 8.

SMART HOME COLLECTION

by BUDGET BLINDS®

The Automated 1 3/8" H-Rail Traverse collection combines motorized technology with the beauty of AriA® Metal Hardware, integrating Smart Home Solutions designed for residential and commercial environments.

connected home

We've partnered with Rollease Acmeda, a leader in smart home technology, to offer unparalleled convenience in controlling your draperies, all at the touch of a button.

it's as easy as

Our Smart Home Collection AriA® Metal Hardware Systems are easy to install, easy to afford and use the latest integrated wireless technology. You can use the Smart Home Collection remote, app, Alexa or Google Home to conveniently control your draperies and window coverings. Motorization helps keep your draperies safe by eliminating cords and allows you to experience a new level of privacy when integrating Smart Home Collection drapery and window covering solutions.

features

2-Way RF Communication	Adjustable Speed	Preferred Open / Close Limit Settings	Favorite Position	Obstruction Detection	Manual Override	Quiet Operation
Integrated radio frequency control allows for easy programming of individual, group or all control across window treatments.	Choose from three options to customize the open / close speed of the drapery treatment.	Electronic "autoset" limits accurately program preferred open and close limit settings.	Allows a most used or favorite position to be set between open and close limit settings.	If the drapery motion is obstructed while the motor is running, the motor stops automatically to prevent damage.	Permits the drapery to be adjusted manually without the use of a remote or in the event of a power outage.	Powerful, smooth and quiet operation suitable for both residential and commercial environments.

Smart Home controls

- Advanced home automation and motorized solutions from our Smart Home Collection puts unparalleled convenience and peace of mind at your fingertips.
- Easily connect your automated drapery to voice control systems using our Hub, taking drapery control to the next level.
