AriA® 1 ⅛" H-Rail Traversing Kits

To order a kit, follow this convention:
Item#/length of rod/finish

For example, a single rod ceiling mount kit with a 6' rod length in Brushed Nickel would be: **FMH28403/6/BN**
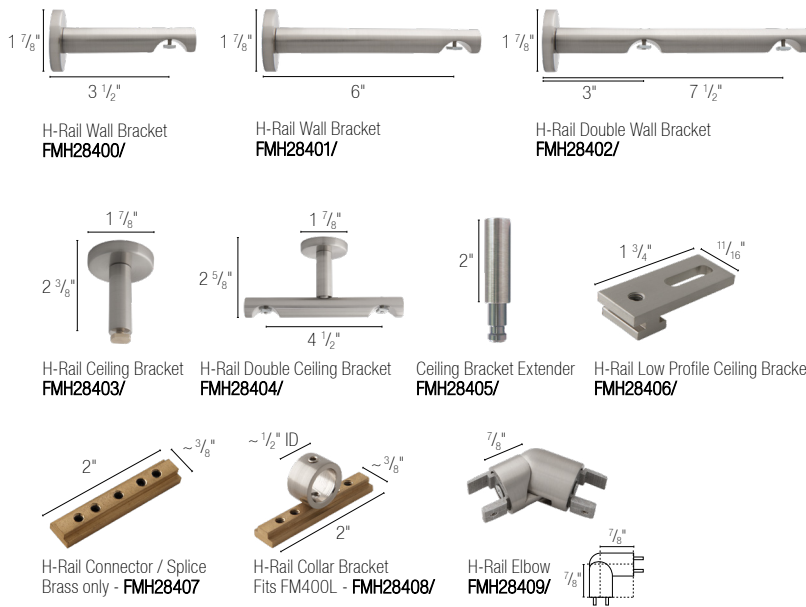

- 1 ⅛" diameter tracks are available in 6', 8' & 12' lengths. 12' lengths are available in all finishes except CH, SG, BZ or ORB.
- All H-Rail kits include End Caps but are designed to work with any 1 ⅛" Atelier, Artisan & Abode Finials.
- Compatible with R-TRAC Baton Draw Track System Components. Use ball bearing carriers for pinch pleated panels, and Ripplefold carriers for ripple panels. For more details on Pinch Pleat and Ripplefold carriers, please see the AriA price list.

Materials: Aluminum/Zinc

Available finishes:

| Chrome CH | Brushed Nickel BN (new) | Satin Nickel SN | Brushed Black Nickel BBN (new) | Satin Gold SG (new) | Antique Brass AB | Oil Rubbed Bronze ORB | Brushed Bronze BZ | Matte Black MK |

4003N & 4004 Universal Tracks

- Easily cut with hack saw.
- White track, designed for baton draw system. Select lengths available in brown. Look for the Brown (/B) icon.
- 4003N can be ceiling or wall mounted. Requires mounting clips or brackets. Use 4003/TS splice to create longer track.
- 4004 can be mounted directly to ceiling without using clips or brackets.
- Tracks can be custom assembled. See Custom Solution Track Systems on page 11.
- Tracks over 8' ship via truck. Call 800.343.4542 for an estimate.

Ripplefold

*Components are white. Look for the brown icon /B for components available in brown and add /B to order.

Short and long pendants available in Ripplefold end caps and carriers. Master carriers work with both short and long pendants.

Short Pendants

- Pendant drop - ½".
- Recommended for standard installations including for use with **AriA® h-rail traverse kits**.
- Short carriers align with master carriers.
- Snap tape should be sewn on no more than ⅛" from top edge of the drapery.

Long Pendants

- Pendant drop - ⅝".
- Option for use in high traffic **commercial installations** to minimize friction at the top of the drapery.

Baton Draw Track System Components R-TRAC

Ripplefold Tape R-TEX

- Made of Polyester.
- Nickel plated brass snaps do not rust.
- Orange thread fits R-TRAC components sold on previous pages.
- Fits R-TRAC and Kirsch carriers, more tapes available on RowleyCompany.com.
- Approximately 100 yards per full roll.

Item #	Description	Thread Color	Ripple Spacing	Pieces/Case
ST40/O	Ripplefold Tape	Orange	4 ¼	12

⚠ Warning: Carriers can vary by manufacturer. Check snap tape with carriers before sewing.

Clear Ripplefold Snap Tape R-TEX

- Polyester translucent Ripplefold tape.
- Nickel plated brass snaps do not rust.
- Same dimensions as ST40/O; fits R-TRAC and Kirsch®.
- Due to the difference in carriers of various brands, verify the compatibility with the carriers you are working with.

Item #	Spacing	Approximate Yards per Roll	Pieces/Case
ST40/C	4 ¼"	100 yds.	12

⚠ Warning: Carriers can vary by manufacturer. Check snap tape with carriers before sewing.

4003N Ceiling or Wall Mount Track System *custom solutions*

- Save yourself valuable time, let our trained staff assemble your made-to-order 4003N ceiling or wall mount track system.
- This custom solution includes track, fiberglass baton, master carrier(s), carriers, end caps, bracket(s), labor and packaging.
- The system ships to you fully assembled for your fabric to be attached.
- Baton draw, pinch pleat or Ripplefold.
- Ceiling or wall mount.
- Call 800.343.4542 for details.

Ships in 5 business days. For orders over 10 pieces, please contact us to confirm the lead time.

4004 Ceiling Mount Track System *custom solutions*

- Save yourself valuable time, let our trained staff assemble your made-to-order 4004 ceiling mount track system.
- This custom solution includes track, fiberglass baton, master carrier(s), carriers, end caps, labor and packaging.
- The system ships to you fully assembled for your fabric to be attached.
- Baton draw, pinch pleat or Ripplefold.
- Ceiling mount.
- Call 800.343.4542 for details.

Ships in 5 business days. For orders over 10 pieces, please contact us to confirm the lead time.

Ripplefold

*Components are white. Look for the brown icon /B for components available in brown and add /B to order.

Short and long pendants available in Ripplefold end pulleys and carriers. Master carriers work with both short and long pendants.

Short Pendants

• Pendant drop - ½".
• Recommended for standard installations.
• Short carriers align with master carriers.
• Snap tape should be sewn on no more than ⅛" from top edge of the drapery.

Long Pendants

• Pendant drop - ⅝".
• Option for use in high traffic **commercial installations** to minimize friction at the top of the drapery.

Save valuable time and money.
Let Rowley Custom Solutions do the work for you!

Rowley creates made-to-order architectural track systems.

Our trained staff uses your specifications, cuts track and assembles the system to order. You simply sew the drapery panel and attach to the hardware. The system ships to you fully assembled for your drapery to be attached.

Ships in 5 business days. For orders over 10 pieces, please contact us to confirm the lead time.

Ripplefold Carrier Snap Tool

- Use to quickly and easily snap Ripplefold drapery onto carriers.
- Ergonomic handle improves grip.
- Color may vary.

Item #	Pieces/Case
MH21	1

4001 Cord Draw Track System Components R·TRAC

Ripplefold Tape R·TEX

- Made of Polyester.
- Nickel plated brass snaps do not rust.
- Orange thread fits R-TRAC components sold on previous pages.
- Fits R-TRAC and Kirsch carriers, more tapes available on RowleyCompany.com.
- Approximately 100 yards per full roll.

Item #	Description	Thread Color	Ripple Spacing	Pieces/Case
ST40/O	Ripplefold Tape	Orange	4 ¼	12

⚠ Warning: Carriers can vary by manufacturer. Check snap tape with carriers before sewing.

Clear Ripplefold Snap Tape R·TEX

- Polyester translucent Ripplefold tape.
- Nickel plated brass snaps do not rust.
- Same dimensions as ST40/O; fits R-TRAC and Kirsch®.
- Due to the difference in carriers of various brands, verify the compatibility with the carriers you are working with.

Item #	Spacing	Approximate Yards per Roll	Pieces/Case
ST40/C	4 ¼"	100 yds.	12

⚠ Warning: Carriers can vary by manufacturer. Check snap tape with carriers before sewing.

4001 Cord Draw Track System 🔧 *custom solutions*

- Save yourself valuable time, let our trained staff assemble your made-to-order 4001 cord draw system.
- This custom solution includes track, master carrier(s), end pulleys, return bracket(s), carriers, drive tension device, cord, warning tag, labor and packaging.
- This system ships to you fully assembled for your drapery to be attached.
- Pinch pleat or Ripplefold.
- Ceiling or wall mount.
- Call 800.343.4542 for details.

Ships in 5 business days. For orders over 10 pieces, please contact us to confirm the lead time.

Sure-Shade™ Universal Drive Tension Device R·TRAC

- Universal design compatible with continuous cord loops and bead chain loops, even works with chain loop connector.
- Complies with ANSI 2018 Standard for Safety of Window Covering Products. Required on shades, traversing panels and any window treatment with a drive cord or chain loop.
- Must be installed correctly or renders shade partially inoperable.
- Includes inside and outside mount bracket, instructions and necessary screws.
- Warning tag ANS16 must be attached to each device and is sold separately.
- Independently tested and approved.
- Patent pending.

Buckram R·TEX

Non-Woven Permanent Drapery Buckram

- Washable and dry cleanable.
- All buckrams under 40" wide will fit our dispenser for rolled goods PR36.
- 100 yards per roll.

Item #	Weight Type	Width	Style	Pieces/Case
BN34	Standard	4"	Sew-On	20
BN38	Standard	4"	Iron-On	20

Polyester Permanent Drapery Buckram

- Washable and dry cleanable. No shrinkage after cleaning and pleats stay firm.
- 100% polyester. Snow white color.
- Easier to sew than traditional non-woven buckrams.
- Won't heat up sewing machine needles like other buckrams can.
- Light weight is suitable for sheers and light weight fabrics.
- Standard weight is 33% heavier than light weight, suitable for medium weight fabrics.
- Heavy weight is 30% heavier than standard weight, suitable for velvets and heavy weight fabrics.
- All weights are available in both sew-on and iron-on styles.
- Iron-on has adhesive on one entire side.
- 100 yards per roll.

Metal Grommets

Brass Round Grommets: #12 - #20

- Grommet washers can be used to help hold thin or stretchy fabrics in place.
- All grommets are made of brass, are corrosion resistant and have low profile gripping nubs.
- Works with our grommet press GL and cutters and setters for the proper size grommet.
- For functioning grommets, the inside diameter needs to be 40% larger than the diameter of the pole.
- #20 grommets are ideal for rods up to 2 ⅜" diameter. Use 5" or 6" buckram in header for these grommets.
- 12 sets per pack.

Automated Shade Systems

R-TEC AUTOMATION™ by Rowley

Wirefree Tubular Motors NEW

Li-ion battery-powered motorized shades are a perfect retro fit for existing homes or small commercial projects. Li-ion powered motors require no electrical wiring, no external battery pack and no complicated installation. Attached Wand Control options also available.

pages 27 - 30

DC Tubular Motors NEW

DC powered motorized shades are an excellent choice when designing a new home, motorizing an entire existing home or planning a small commercial project. DC wired shades are maintenance free and low voltage DC wiring keeps installation costs to a minimum.

pages 27 - 30

Cord Lift Motors NEW

Cord Lift powered motorized shades offer a contemporary look while maintaining the functional benefits of a traditional Roman shade. For a small Roman shade system, these motors have the ability to lift shades of various weights and sizes while still ensuring a smooth and quiet operation.
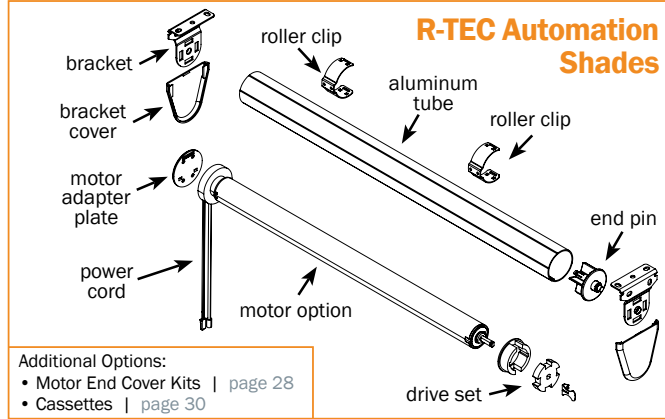

page 31

R-TEC Automation Systems NEW

The most premium and advanced Smart Automation Home Controls: control shades, lighting, entertainment, security, climate and other connected devices all via one convenient control. Automation plugs into and is compatible with each of these solutions to ensure premium shade control.

page 32

Wirefree Tubular Motors

- Leveling control
- Simple limit setting and adjustment
- Favorite position
- 3 operational speed settings available
- 2-way RF communication
- Rechargeable built-in Li-ion battery
- Up to 500 up and down cycles per charge (based on recommended shade size)
- Optional solar powered charger (Coming Soon!)
- New ARC™ protocol for simple programming
- Requires Battery Charger RTMLBC on page 28

EZ Rig Soft Shades

- Easiest on the market to assemble, install and operate.
- Self-contained, stationary drive system with individual drums.
- Headrail is low profile and does not require a mounting board. Available with hook tape applied for mounting shade directly to headrail. Sold in 4', 8' and 12' lengths.
- Two clutch sizes available: 15 lb and 20 lb limits. Each includes end cap.
- Track Projection: 1 ¼"; with ceiling / wall mount bracket: 1 ¾"; with swivel swing bracket: 1 ⅝".
- Use 1 drum for each row of lift. Cone-shaped drum ensures tangle-free winding.
- Simply slide drums onto square drive rod, install into track and finish with clutch and end cap.
- Drum position can be easily adjusted in track. Each drum is 4 ½" wide.
- Works with our bead chain loop (not included).
- Works with our 1.4 mm encased lift cord shroud tube or tape.

⚠ WARNING
Window Blind Cord Can STRANGLE Your Child
- Children can strangle in the loop above the cord bead.
- Children can climb furniture to reach cords.
- Move crib and furniture away.
- Keep all cords out of children's reach.
- Attach tension device to wall or floor.
- Fasteners provided with the tension device may not be appropriate for all mounting surfaces.
- Use appropriate anchors for the mounting surface conditions.

⚠ WARNING
Window Blind Cord Can STRANGLE Your Child
- Children can strangle in the loop above the cord bead.
- Children can climb furniture to reach cords.
- Move crib and furniture away.
- Shorten cords to prevent reach.
- Keep cords separate. Twisted or knotted cords can create a loop.
- Keep all cords out of children's reach.

The **AriA® Metal Hardware** line offers seven designer hardware collections providing a beautiful range of finial designs and a full line of coordinating accessories across two pole diameter options. The 1 ⅛" diameter **Atelier, Artisan, Abode, French Returns** and **1 ⅛" H-Rail** collections are designed to work seamlessly with each other allowing you to create customized mix-and-match decorative hardware designs and solutions. The larger 1 ⅜" diameter **Antiquities** and **1 ⅜" H-Rail** collections offer updated traditional finial designs in layered, multi-pass antiqued finishes with innovative functional accessories.
