

Rowley Company Introduces the New Antiquities DDH Collection, Expanding the AriA™ Metal Hardware Line into Larger Scale Style

Gastonia, NC – September 1, 2016 – Rowley Company is excited to announce the addition of the new Antiquities collection to the AriA Metal Hardware portfolio, and the Rowley family of designer drapery hardware brands. The Antiquities collection features a new larger diameter 1 3/8" drapery hardware platform combining updated traditional finial designs with layered, multi-pass antiqued finishes and innovative functional accessories.

“This collection reimagines the classics. Antiquities is designed to maximize style, scale and functionality offering a refined drapery hardware assortment that expands our decorative hardware portfolio to complement an even larger range of window styles,” explains Rowley’s Director of Design.

Available September 1st, the collection offers ten finial and two end cap designs that evoke a classically modern interpretation of traditional silhouettes available in nine multi-pass and antiqued finish options in a larger scale 1 3/8" diameter, creating an expanded portfolio of stunning metal hardware window design options.

Innovative functional accessories introduced in the new collection include:

- A finial wall mount adaptor that allows you to turn any finial into a decorative holdback or medallion.
- Holdback medallions that are designed to be styled with the finials, and can be used on their own to create unique medallion window treatment applications.
- Bypass Brackets and C-Rings that allow the treatment to glide effortlessly over the notched bracket for easy use.
