Decorative French Bread Basket

By Laurie Medford
Charlotte, N.C.

If you're looking for a quick and easy add-on sale — or a leave-behind gift — a French Bread Basket may be the ticket. With a little bit of thought and pattern sizing, you can adapt this technique to make any size basket for use indoors or outdoors to hold almost anything: bread, napkins, silverware, mail, centerpieces, even a cat! This basket finishes with a base of 10x10 inches, with 4-inch sides.

Step 1 Cut your face fabric (outside) and lining (inside) at 18 inches square. Press on a layer of iron-on batting to the back of the face fabric.

Step 2 Center a second piece of iron-on batting, measuring 10x10 inches, to the center of the back of the face. The remainder should be 4 inches on all sides. Press. This layer will add extra stability to the bottom.

Step 3 Place right sides together and sew around the square, leaving open a space for turning. Clip the excess bulk away from the corners. Turn right sides out and press. Close the opening.

Step 4 Make four ties: 3x32 inches if you want to tie a knot, or 3x40 inches if you want to tie a bow. Fold the ties in half lengthwise and iron to set a crease. Unfold and then fold in both raw edges to the center crease. Press. At the ends, turn under the raw edge and re-fold. Press.

Step 5 Pin the ties to the face at 4 inches in from each side, so that the ties lie on the edge of the 10x10-inch batting layer. Sew the ties to the face by top-stitching along both sides. Your top-stitching will show, so practice first!

Step 6 Back at the table, fold lining to lining on the bias, and tie the corners. ✂
