Motorized Drapery Systems

Select from a variety of heavy duty track or decorative drapery hardware brands to cover your window needs.

No physical operating cords, ensuring the ones we care about most are protected and safe. 

AUTOMATE® SLIM MOTOR 110 - 111

Designed to install seamlessly behind the drapery panel, providing the ultimate integrated functionality without compromising the look of your window treatment.

TRACK & COMPONENTS 108 - 115

Create a commercial look with the benefits of automation.

AUTOMATE® CONTROL 116 - 117

The  Bond Bridge Pro and Bond Home App enable control of draperies via smartphone or integrated devices, at home or remotely. Alternatively, Remotes and Wall Switches offer individual, group, or all control with 1, 2, 5, or 15 channel options.

CUSTOM SOLUTIONS 118

Let our experts assemble your Motorized Track System(s) for you! With custom solutions tailored to your needs, each system is expertly assembled in the USA for superior quality and performance.

MOTORIZATION DISPLAY KIT 119

DECORATIVE DRAPERY HARDWARE FAMILY OF BRANDS 120 - 121

Our family of brands offer motorization options, allowing you to combine sophisticated design with effortless automation for enhanced control, style, and convenience.

Motorized Track System 

System Highlights

- Motorized Single or Double Track Systems in White or Bronze.
- Ceiling or wall mount options to accommodate all drapery installations.
- Automate® Slim Drapery Motor available with Li-ion Battery or 110v AC / DC Power Transformer.
- Control draperies effortlessly with the touch of a button or voice command.
- Available with a variety of remotes, wall switches, and home integration options.
- Minimum system length of 37" and maximum continuous track length of 19' (extendable up to 36' with Track Splice).
- Tandem capability: use two motors on draperies that exceed single motor capacity.
- Use Fascia Mount Clips to upgrade with decorative fascias such as our Finestra® Wood Hardware brand - sold to trade members.
- No physical operating cords.

MT03-0304-050007	AC Power Cord for 18 Ch Power Distributor, 6'	\$19.00
RTMDMA	Adapters for Slim Drapery Motor to Power Distributor (*10 pieces per pack)	\$19.00*

2-WAY RF COMMUNICATION
Integrated radio frequency control allows for easy programming of individual, group or all control across window treatments.

ADJUSTABLE SPEED
Choose from three options to customize the drapery treatment's open / close speed.

MANUAL OVERRIDE
Permits the drapery to be adjusted manually without the use of a remote or in the event of a power outage.

FAVORITE POSITION
Set a favorite position between the open and close limits for quick and convenient access.

IOT INTEGRATION
Pairs with several voice control systems using the Automate® Pulse 2 Hub & App, including Apple HomeKit, Amazon Alexa, Google Assistant, and SmartThings. Also works with Bond Bridge Pro & App.

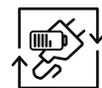

OBSTRUCTION DETECTION
If the drapery motion is obstructed while the motor is running, the motor stops automatically to prevent damage.

PREFERRED OPEN / CLOSE LIMIT SETTINGS
Electronic "autose" limits accurately program preferred open and close limit settings.

QUIET OPERATION
Powerful, smooth and quiet operation suitable for both residential and commercial environments.

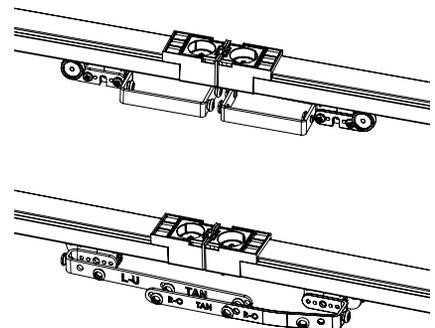

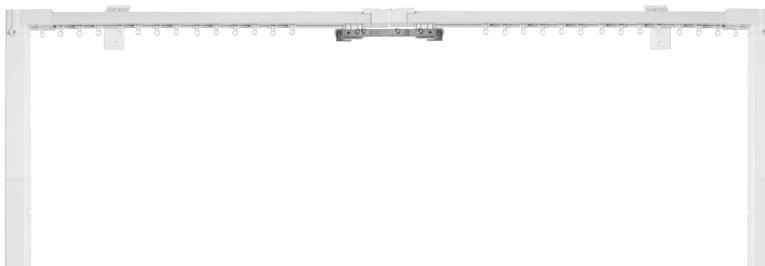

INTERCHANGEABLE POWER SOURCE
Choose connection via a rechargeable Li-ion Battery or 110v AC/DC Power Transformer.

OPTIMAL SOLAR RECHARGE OPTION
Pairs with optional Solar Panel Battery Charger for autonomous recharging if using the Li-ion Battery power option, creating an eco friendly environment.

TANDEM CAPABILITY FOR AUTOMATED TRACK SYSTEMS

Tandem capability automated systems utilize two drapery motors and are used for draperies that exceed the maximum single motor capacity. Available with Butt Master One-Way Draw Arms RTMDTOB on **page 114** (Ripplefold draperies), or Overlap Tandem Center Draw Arms RTMDTCDTAN on **pages 113 - 114** (Pinch Pleat or Ripplefold draperies). Please contact Rowley® for details.

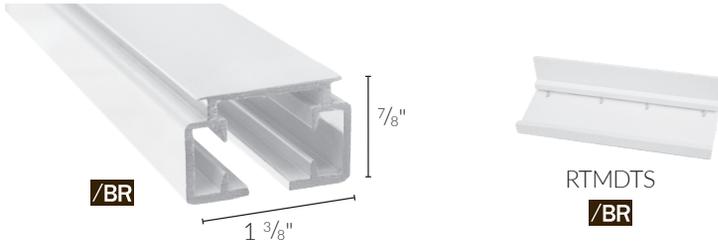

Motorized Track System Components

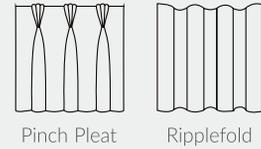

TRACK

- White or Bronze Track. Look for the Bronze icon **/BR**.
- Minimum System Length is 37". Maximum Continuous Track Length is 19' or use Track Splice for longer lengths up to 36'.
- See **Custom Solutions** on page 118. **H**
- Lengths over 8' will ship via truck and incur an oversized fee.

Look for these **Drapery Header Icons** for compatible products.

Item #	Description	1 Piece	24 Pieces
RTMDT/8 /BR	8' Length (Ceiling or Wall Mount)	\$40.28	\$34.98 ea

Motorized Shade Systems

System Highlights

- Create Motorized Roman / Soft (Lift Band or Lift Cord) or Roller Shades with ease by simply placing a shade motor in tube.
- Choose the ideal shade motor for your project - see comparison chart on **pages 126 - 127**.
- Introducing our (NEW) R-TEC Automation® Li-ion Battery motors.
- Automate® motors available in Li-ion Battery, DC, or Basics.
- Raise or lower shades with the touch of a button or voice control. Choose from a variety of remotes, wall switches, and smart home integrations available for both R-TEC Automation® or Automate® Motors- see compatibility chart on **page 105**.
- Power solutions include Battery Chargers, Extensions, and the eco friendly Solar Panel Battery Charger.
- Universal Brackets with a spring-loaded End Pin offer a sleek, slim profile and smooth operation.
- Ceiling or wall mount options to accommodate all shade installations.
- Front / Standard or Reverse Mount.
- Certified Best for Kids™. 

Ordering Preference

Select whether to fabricate your Motorized Shade System yourself, or have Rowley® do the work for you.

» ORDER BY COMPONENTS

- Quick Order Checklist - see **page 125**.

» CUSTOM SOLUTIONS

- Our in-house experts will do the work for you and assemble your made-to-order Motorized Soft Shade System(s).
- See **Custom Solutions** on **page 150** for info & form. 
- Select systems and options available.

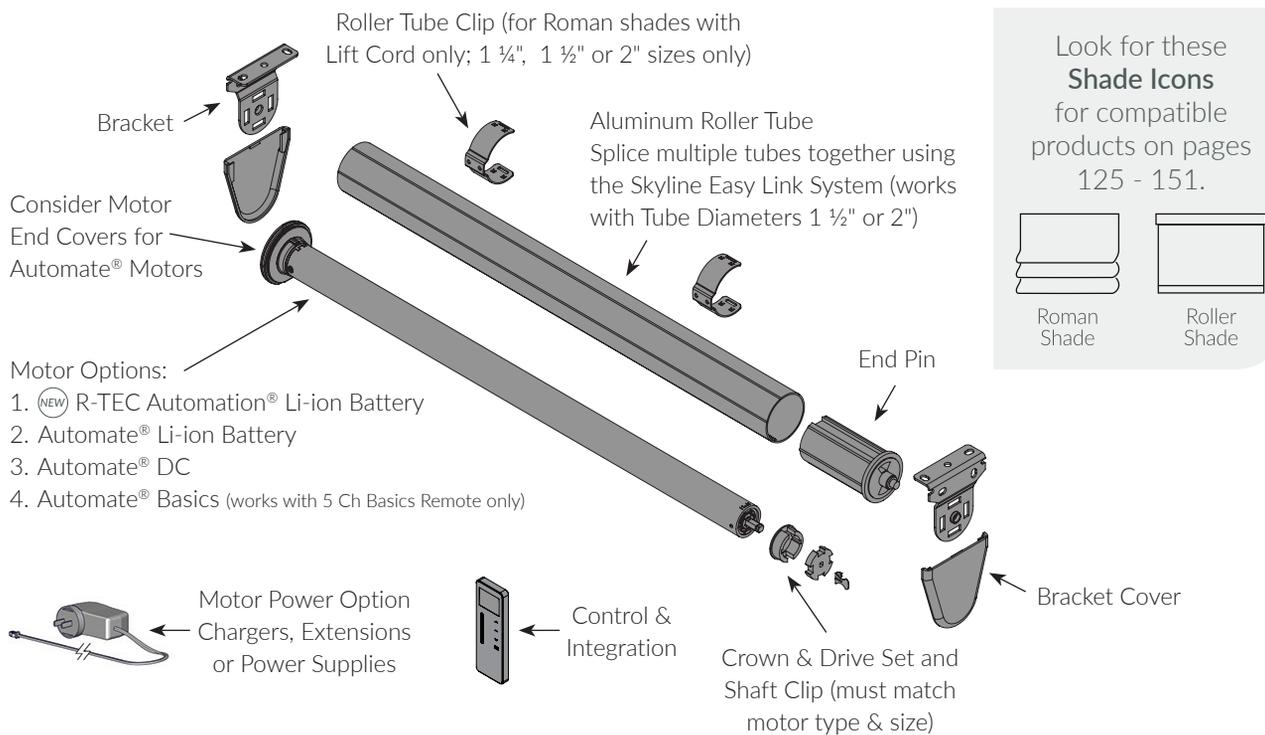

» SHADE STARTER KITS

- Include all items needed to build one 4' Roller / Roman Motorized Shade, excluding fabric.
- Lift Band or Lift Cord available.
- Get started on **pages 132** (R-TEC Automation® Li-ion Battery) & **140** (Automate® Li-ion Battery or DC).

Quick Order Checklist

- ✓ **Motor**
pages 128 - 129, 134, 136 & 141
 - R-TEC Automation®: Li-ion Battery; or Automate®: Li-ion Battery, DC or Basics
 - 25 mm, 28 mm or 35 mm size; various lengths
 - Shade weight determines motor size - refer to the chart on pages 126 - 127
- ✓ **Motor Power**
pages 129, 135, 137 & 141
 - Li-ion Battery Motors: Battery Chargers, Extensions or Solar Panel
 - DC Motors: Battery Pack, Battery Tube, Power Supply or 18 Channel Power Distributor
- ✓ **Aluminum Roller Tube**
page 143
 - 1 1/4", 1 1/2" or 2" diameter
 - 4', 6', 8', 12' or 16' length; splice with Skyline Easy Link System on page 148
- ✓ **Drive Set Kit (must match motor type)**
pages 129, 135 & 137
 - Crown & Drive Set, Shaft Clip and End Pin
- ✓ **Skyline Mount Brackets & Covers**
page 142
 - Narrow option available
 - Bracket Covers in White, Black, or Satin Nickel
- ✓ **Roman Lift Band Option Components** 
pages 144 - 146
 - Translucent Woven Buckram
 - Round Fiberglass Ribs + Rib Guides (Center Supports & End Caps) recommended, but alternative rib options include Round Acrylic Ribs, Round Plastic Ribs, or Flat Fiberglass Ribs
 - Consider Rib Tape on page 220
 - Weight Bar - 3/8" Solid Steel Rod or Flat
- ✓ **Roman Lift Cord Option Components** 
pages 143 - 146
 - Roller Tube Clips (1 1/4", 1 1/2" and 2" sizes only)
 - 0.9 mm Encased Lift Cord Shroud Tube
 - Requires one Sew-On Ring per column of lift
 - Ribs for structure and Rib Tape on page 220
 - Weight Bar - 3/8" Solid Steel Rod or Flat
 - Consider Cord Adjuster Orbs on page 222
- ✓ **Roller Option Components** 
pages 147 - 148
 - Laminating Adhesive
 - Room Darkening Shade Cloth
 - Wood Shade Slat or Bottom Rail
- ✓ **Control & Integration**
pages 130 - 131, 138 - 139, 141
 - Remote Controls, Switches, Wi-Fi Hubs & Apps

R-TEC Li-ion Motors & Accessories 

NEW

Introducing the
R-TEC AUTOMATION® LI-ION BATTERY MOTORS

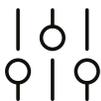

- Ideal for many spaces, residential or commercial, including retrofit for existing systems.
- Crafted for long-lasting performance.
- Powered by the latest in cutting-edge radio communication technology.
- Li-ion Battery operates up to 500 up and down cycles per charge (based on recommended shade size).
- Select from 2-cell or 3-cell battery options, extending the capacity.
- Requires Battery Charger (options [page 129](#)). The Solar Panel Battery Charger MT03-0302-067002 is an eco friendly option that supplements the battery using solar energy when available (note: it cannot recharge a fully drained battery).
- Short Motor RTA25L2C1WA can be used for narrow width applications.
- Compatible with Skyline Brackets on [page 142](#), other components on [pages 143 - 148](#), and Drive Set Kits on [page 129](#).
- See [Custom Solutions](#) on [page 150](#). 
- Starter Kit on [page 132](#) includes all items needed to build one 4' R-TEC Motor Roller / Roman Shade, excluding fabric.
- View compatible Motorized Drapery Systems on [pages 106 - 121](#).
- Certified Best for Kids™. 

**1-WAY RF COMMUNICATION**

Integrated radio frequency control allows for easy programming of individual, group or all control across window treatments.

**ADJUSTABLE SPEED**

Choose from three options to customize the shade's open / close speed.

**LEVELING CONTROL**

Achieve precise positioning of multiple window treatments, ensuring perfect alignment every time.

**QUIET OPERATION**

Powerful, smooth and quiet operation suitable for both residential and commercial environments.

**PREFERRED UPPER / LOWER LIMIT SETTINGS**

Electronic "autoset" limits accurately program preferred upper and lower settings.

**FAVORITE POSITION**

Set a favorite position between the upper and lower limits for quick and convenient access.

R-TEC Automation® Control & Integration 

Introducing the R-TEC AUTOMATION® REMOTE CONTROLS

- Our selection of **Remote Controls** pair seamlessly with **R-TEC Automation® Shade Motors**, providing easy programming and operation for a convenient motorized solution.
- **LED Wall Mount Remotes**, available in 1 or 2 channels, offer a sleek, sophisticated design that stays in place. Easily replace batteries by removing from the wall, and set a favorite position for each channel.
- **Handheld Remote with Scroll Wheel Adjustment** available with 6 channels and an easy-to-use wheel to open and close shades, as well as favorite position.
- Opt for **LED/LCD Handheld Remotes with Wall Mount** with 6 or 16 channels for a modern approach of shade control. Effortlessly remove the handheld remotes from their wall mounts to use, and place back for easy location. Features include favorite position, plus 30% and 60% closed buttons.
- All remote controls are White and have a 98.5' Range, allowing further functionality and control.

AUTOMATE™
MOTOR PROGRAMMING INSTRUCTIONS
Versa Drapery Motor

Roller Shade Installation Instructions Using a Battery Motor – 25 mm or 28 mm
Please read all instructions before starting.

INTRODUCTION:
The Roller Shade Motorized System is used to electronically control the shade using an remote and receiver control. The shade drapery weight will determine the motor needed for the installation. For alternative shade weights, be using a receiver control on the motor unit. The operator can raise and lower the shade smoothly and precisely. **Figure 1** shows an assembled roller shade with motor and end brackets.

THE Roller Shade can be installed either inside or outside the window using the roller shade track mount the brackets on either side. The installation site should have enough space for the shade fabric when completely rolled up.

FIGURE 1
Roller Shade Motorized System Components

PARTS LIST:
See Figure 2:
1. Roller Motor
2. Aluminum Roller
3. End Brackets
4. Bracket Covers
5. Screws and Other Tools

FIGURE 2
S&C Components

BRACKET & BRACKET COVERS:
The brackets and covers are used to secure the roller shade motor to the window frame. The brackets are made of aluminum and are available in two colors: white and black. The covers are made of plastic and are available in two colors: white and black. The brackets and covers are used to secure the roller shade motor to the window frame. Automate® Li-ion Motors & Accessories

- A perfect retro fit for existing homes or small commercial projects.
- Designed to last. Li-ion Battery operates up to 500 up and down cycles per charge (based on recommended shade size).
- Requires Battery Charger (options **page 135**). The Solar Panel Battery Charger MT03-0302-067002 is an eco friendly option that supplements the battery using solar energy when available (note: it cannot recharge a fully drained battery).
- Slim, skyline motor head allows minimal light-gap, and features a purpose-designed groove for the antenna cable.
- Short Motor MT01-1325-069028 can be used for narrow width applications.
- Compatible with Skyline Brackets on **page 142** and other components on **pages 143 - 148**, plus Drive Set Kits and optional Motor End Covers on **page 135**.
- See **Custom Solutions** on **page 150**.
- Starter Kit on **page 140** includes all items needed to build one 4' Automate® Motor Roller / Roman Shade, excluding fabric.
- View compatible Motorized Drapery Systems on **pages 106 - 121**.
- Certified Best for Kids™.

Automate® Li-ion Battery Motors

Item #	Motor Size, Style, Sound	Tube Dia.	Max. Size	Min. Roller Shade Width / Roller Tube Length	Min. Roman Shade Width / Dustboard Length	Max. Load	Price

		2"		28 ½"	30"	17 ½ lbs.	
MT01-1335-069001	35 mm Std	2"	120" x 120"	37"	39"	26 ½ lbs.	\$275.23

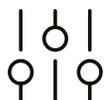

2-WAY RF COMMUNICATION

Integrated radio frequency control allows for easy programming of individual, group or all control across window treatments.

ADJUSTABLE SPEED

Choose from three options to customize the shade's open / close speed.

LEVELING CONTROL

Achieve precise positioning of multiple window treatments, ensuring perfect alignment every time.

QUIET OPERATION

Powerful, smooth and quiet operation suitable for both residential and commercial environments.

PREFERRED UPPER / LOWER LIMIT SETTINGS

Electronic "autoset" limits accurately program preferred upper and lower settings.

FAVORITE POSITION

Set a favorite position between the upper and lower limits for quick and convenient access.

Automate® Control & Integration

- The **Automate® Pulse 2 Hub** MT02-0401-067001 provides the heartbeat of the automation experience. With Wi-Fi built in, simply plug in where convenient and connect to the local network.
- The **Automate® App** enables simple, intuitive control and system configuration from your smartphone or tablet while at home or away. Available in the Apple App Store or Google Play.
- **Handheld Remotes** offer modern features, including LCD displays, individual, group and all control and precision leveling, giving users complete control.
- **Wall Switches** come in both cut in and flush mount configurations and provide a sensible control option for room and whole home control.
- Extend the wireless range of the Automate® Pulse 2 Hub & Remotes up to 60' using our **ARC™ USB Signal Repeater** MT02-0401-069007.
- The **Interior Sun Sensor** MTRF-SUNSENS automatically manages daylight transitions at each window, minimizing reliance on or cost of artificial light.

Experience the AUTOMATE® BRAND ON THE BOND HOME APP

- The **Bond Home App** is the leading platform for remote-controlled motorized shades along with the below **Bond Bridge Pro**.
- Control your devices from anywhere, including when offline, so you can manage your home seamlessly, even when you're away.
- Streamline your R-TEC Automation® and Automate® Motors in one App.
- Connects your devices with Amazon Alexa, Google Assistant, Siri, and other popular home automation platforms.
- Available in the Apple App Store or Google Play.

Introducing the BOND BRIDGE PRO

- Smart home functionality adds Wi-Fi to your shades, enabling seamless control.
- Shade slider easily opens and closes your shades to desired percentage.
- Ethernet port & Power Over Ethernet (PoE) technology, creating less cords.
- No installation or hardwiring needed. Setup is fast and easy.
- Ceiling or wall mount.
- 1.4" H x 5.7" W x 6.2" D.
- 3 year warranty.

Ethernet and PoE port

CRESTRON HOME™

Automate® Shade Starter Kits  

- Pre-packed with all components needed to assemble one 4' Automate Motor Roller / Roman Shade (fabric not included).
- To make a Roller shade, use the Wood Shade Slat included. Order alternative Bottom Rail on **page 148**.
- To make a Roman shade, use the Encased Lift Cord Shroud Tube & Roller Tube Clips included. Must purchase Weight Bar separately - see options on **page 146**.

Roller / Roman Shade Li-ion Battery Motor Kit

- Automate® 25 mm Li-ion Battery Motor
- Battery Charger & Cable
- 1 ½" Aluminum Roller Tube, 4'
- Pair of Skyline Brackets RSB10 & Bracket Covers, White RSBC10/W
- Drive Set Kit
- Wood Shade Slat, 45"
- 10 yards, 0.9 mm Encased Lift Cord Shroud Tube, White
- 1 ½" Soft Shade Roller Tube Clips (5)
- Automate® Push1 Remote, White

Item #	Max. Load	1 Kit
RSRTM5VL25	13 lbs.	\$395.00

Roller / Roman Shade DC Motor Kit

- Automate® 25 mm DC Motor
- Power Supply MTDCPS-18-25 (may purchase optional Battery Pack MT03-0305-069003 or Battery Tube MTBWAND18-25 separately on **page 137**)
- 1 ½" Aluminum Roller Tube, 4'
- Pair of Skyline Brackets RSB10 & Bracket Covers, White RSBC10/W
- Drive Set Kit
- Wood Shade Slat, 45"
- 10 yards, 0.9 mm Encased Lift Cord Shroud Tube, White
- 1 ½" Soft Shade Roller Tube Clips (5)
- Automate® Push1 Remote, White

Item #	Max. Load	1 Kit
RSRTMDCZ25	13 lbs.	\$395.00

Automate® Basics Motorization System

- Accessible and essential motorization.
- RF 5 Channel Remote Control, with a sleek design, is used to operate the Basics Motor with up, down and stop functionality.
- Automate® Basics Motors & Controls are not compatible/interchangeable with other Automate® Motors & Controls (including the Automate® Pulse 2 Hub or App). Basics Remote does work with Bond Bridge Pro and Bond Home App.
- Li-ion Battery operates up to 500 up and down cycles per charge (based on recommended shade size).
- Requires Battery Charger (options **below**).
- Compatible with Skyline Brackets on **page 142** and other components on **pages 143 - 148**, plus Drive Set Kits and optional Motor End Covers on **page 137**.
- See **Custom Solutions** on **page 150**.
- Certified Best for Kids™.

quick tip

Upgrade Manual Shade Systems by simply swapping the Clutch for a Motor, eliminating the need to re-make the shade.

Skyline Easy Link Systems | page 148

Allows for multiple shades to be controlled by a single motor, reducing the number of controllers required.

Works with Roman or Roller shade styles, allowing for minimal gaps between each shade.

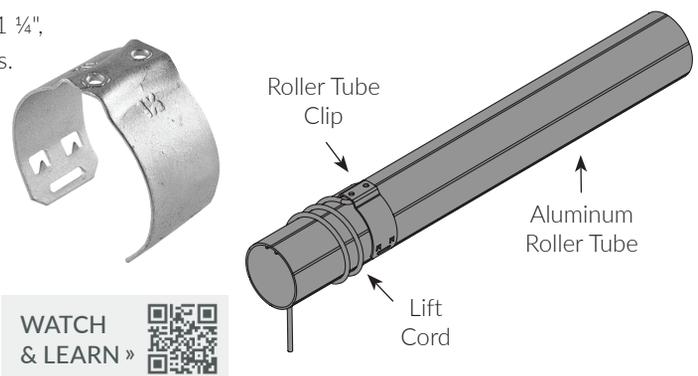

Compatible with Aluminum Roller Tube Diameters 1 ½" or 2".

ROLLER TUBE CLIPS

- Attaches cord from Encased Lift Cord Shroud Tube to 1 ¼", 1 ½" or 2" Aluminum Roller Tube for Roman soft shades.
- Coated, suitable for outdoor use.
- 5 pieces per pack.

Ivory /V

SURE-SHADE™ ENCASED LIFT CORD SHROUD TUBE

- Innovative knit tube with enclosed lift cord to prevent hazardous loops.
- 3/8" width, discreet from the back of the shade.
- 0.9 mm recommended for Roman-style shades to easily tie to Roller Tube Clips.
- Available with or without lift cord for self-threading. Customize with Poly Cord on [page 220](#), available in 5 colors and 3 additional sizes.
- White and Ivory colors blend with all linings and complement sheer fabrics.
- Exclusive tacking/sewing strip prevents fraying, requires only one tack point, and allows for a maximum of 8" between tack points on a flat shade.
- Use Sew-On Rings on [page 222](#) under each bottom tack point for safety standards.
- Cord Adjuster Orbs on [page 222](#) make it easier for final length adjustments.
- 72 yards per roll.

Item #	Description	1 Roll
ELK9/	0.9 mm Lift Cord	\$36.00
ELK/	No Lift Cord	\$34.75

Complies with ANSI 2022 Standard for Safety of Window Covering Products.

Follow Along & Learn

Watch as we show you how-to secure **Shroud Tube** to the back of a **Motorized Roman Shade** using **Glass Head Straight Pins** on [page 321](#) and **Pinnable Worktable Products** on [page 11](#).

ROUND ROMAN SHADE RIBS & SPLICES

- Supports folds and pleats on Roman or hobbled shades when placed in a tuck or pocket.
- Pieces can be spliced for wider shades and to eliminate scrap.
- Compatible with Iron-On Roman Rib Tapes RSR7/ on **page 220**.
- Fiberglass Ribs can also be used with Sure-Shade™ Rib Guides (Center Supports & End Caps) on **page 144** to create Lift Band Roman-Style Shades.

Fiberglass & Acrylic

- Less than 1/8" diameter. Available in 6' and 8' lengths.
- Smaller and more rigid than plastic ribs.
- Clear: flexible and designed for use with sheer fabrics.
- Splices RSR10 work with both Fiberglass & Acrylic Ribs.

RSR10 with RSR12/

Item #	Description	Pieces / Pack	1 Pack	10 Packs
RSR12/6	6' Fiberglass	20	\$15.75	\$14.75 ea

Watch & Learn

Follow along as we show you a **floating rib technique** to create a well-structured Roman shade.

FLAT FIBERGLASS RIBS

- Ideal for clean and consistent shade stacking.
- Provides rigidity and prevents sag in soft shade pleats.
- Flat ribs give better appearance when shade is down. Shade stacks better when it is up.
- Compatible with Iron-On Roman Rib Tapes RSR7/ on **page 220**.
- Ribs are 3/16" wide and 1/16" thick.
- 20 pieces per pack.

Item #	Length	1 Pack	10 Packs
RSR13/6	6'	\$17.00	\$15.75 ea
RSR13/8	8'	\$22.25	\$21.00 ea

Quickly attach flat **Roman Shade Ribs** inside your shades by adding **Sealoh No-Sew Adhesive Tape** on **page 57** to each side of the rib.

Motorized Shade System Components

FLAT WEIGHT BARS

- Ideal for adding weight to the bottom of Roman shades, ensuring smooth, streamlined folds.
- Creates a flat line that enhances decorative edges and trim.
- Durable white powder-coated 2" flat aluminum weight bar.
- Weight: 0.3 lb. per foot.
- Lengths over 8' will ship via truck and incur an oversized  fee.

Item #	Length	1 Piece	15 Pieces

- Brass-plated.

Item #	1 Piece	10 Pieces	50 Pieces
BR40	\$3.50	\$3.00 ea	\$2.50 ea

FABRIC TUBING

- Polyester tubing is mildew and moisture-resistant.
- Fits 3/8" Solid Steel Rod used as weight in bottom of soft shades.
- Tubing is white to blend with lining color.
- Use to prevent gathered shades from spreading apart at the bottom, or as a rod pocket for shades that need a separate weight, such as Balloons, Austrians and Relaxed Romans.
- 100 yards per roll.

Item #	1 Roll
RSR5/100	\$45.00

Rod Splice **BR40** above also fits in Fabric Tubing.

3/8" SOLID STEEL ROD CUTTERS

- Cuts 3/8" Solid Steel Rod on **page 146** with one pull of the handle, much faster and cleaner than a hacksaw, with no burrs or metal filings.
- Mount to a table or a board for portability.
- Durable cast iron construction.
- Includes adjustable guide.

ROOM DARKENING SHADE CLOTH

- Use for making fabric laminated shades, vertical vanes, or soft cornices.
- Works well with our Laminating Adhesive FA45 **below**.
- Prevents fading of fabric and seeing pattern from outside.
- Can be railroaded.
- Also can use without laminating to fabric for a less expensive, room darkening shade.
- Vinyl coated, fiberglass based cloth.
- Fiberglass inner layer minimizes edge curling.
- White with matte finish on one side; straight hanging & flame retardant. 
- Weight: 12 oz. per square yard.
