

## Swag/Jabot Mounting Tape

- One half of the tape is loop and the other half is hook.
- Tape is 2 1/8" wide (1" hook & 1 1/8" loop).
- Used by wrapping the tape around the top edge of a swag or jabot and sewing only one row of stitching instead of using two tapes that require up to four rows. This looks more finished and saves time.
- This tape eliminates binding twill tape on the edge and separate hook and loop tapes.
- Due to small thickness and high strength, this tape also greatly reduces bulk above the dustboard.

STOCK#	Color
HJ222/W	White
HJ222/K	Black
