

Monofilament Thread

- Canister coats thread with silicone to feed and smoothly glide through commercial or some residential sewing machines.
- Clear or Smoke colored Monofilament Thread, no need to match colors.
- Specially formulated strength for extreme sunlight resistance.
- All canisters contain approximately 1.5 lbs. of thread.
- **TM13** is most often used with light weight & sheer fabrics.
TM25 is most popular size & well suited for all medium weight fabrics.
TM40 is good for heavy weight & upholstery fabrics.
TM75 is great for sew-on rings, buttons, etc.
- Some sergers are not designed for Monofilament Threads.

This item is
sold by weight.
All canisters
contain approximately
1.5 lbs of thread.
