

## Wall Charger for Wand RTMLWC6

The Wall Charger for Wand can be used with our Wirefree Tubular Motor with Attached Wand Control. The rechargeable wand enables the motor to operate wirelessly and without the constraints of traditional battery wands with disposable batteries.

### USB Charge

Easily charge your wand via the universal Mini USB Charging Port.

### Long Life

Provides up to 500 up and down cycles on a single charge (depends on window treatment size).

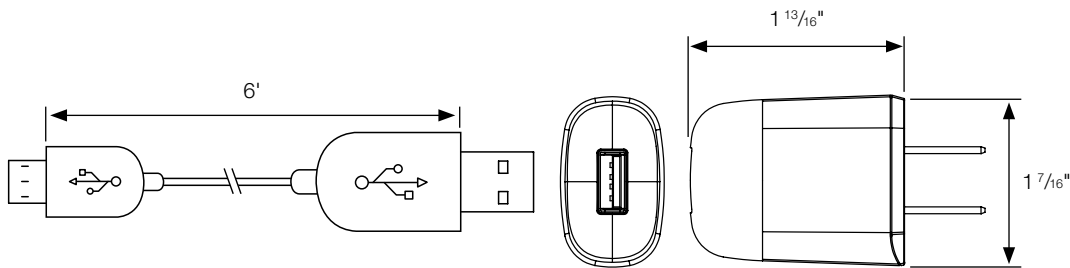

### Quick Recharge

Wand fully recharges in ~6 hours, providing more time for your window treatments to work.

# SPECIFICATIONS

Voltage	12 V DC	Battery Size / Type	1400 mAh / Lithium-ion
