

25 mm Standard Wirefree Tubular Motor RTM5VL25, RTM5VL25S

Li-ion battery powered motorized shades are a perfect retro fit for existing homes or small commercial projects. Li-ion powered motors require no electrical wiring, no external battery pack and no complicated installation.

The standard 25 mm motor allows a maximum shade size of 84" x 84" and has a 21 1/2" minimum shade width / roller tube length.

2-Way RF Communication

Integrated radio frequency control allows for easy programming of individual, group or ALL control across window treatments.

Electronic "autoset" limits accurately program preferred upper and lower limit settings.

Favorite Position

Leveling Control

perfect alignment.

Allows a most used or favorite position to be set between upper and lower limit settings.

This feature allows for precise positioning

of multiple window treatments, ensuring

Adjustable Speed

Three operational speed settings available, allowing you to customize the open / close speed of your shade.

Optimal Solar Recharge Option

Pairs with optional solar panel battery charger for autonomous recharging of the built-in li-ion battery.

IOT Integration

Pairs with several voice control systems using the R-TEC Hub and Automation® App, including Apple HomeKit, Amazon Alexa, Google Assistant, IFTTT and SmartThings.

Battery Powered

Rechargeable built-in Li-ion battery that operates up to 500 up and down cycles per charge (based on recommended shade size).
