

GETTING STARTED:

Before connecting Alexa to your R-TEC Hub, please ensure the R-TEC Hub and window treatments are working.

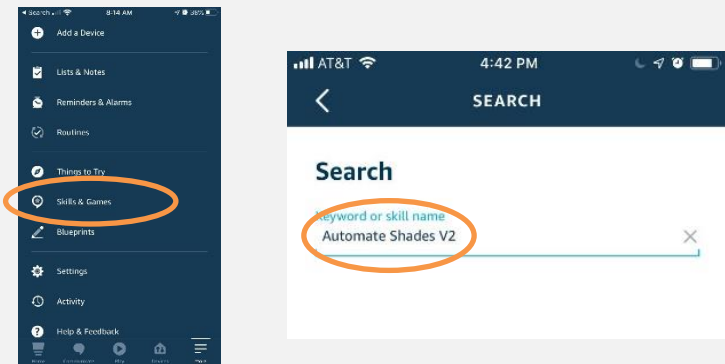

Go to your R-TEC Hub, add the Hub by following the steps suggested. Proceed to pair your window treatments through the R-TEC Automation® App. To control your window treatments with your voice assistant, you will need the following:

1. R-TEC Hub already set up and working.
2. R-TEC Automation® App and account.
3. Working window treatments with your R-TEC Automation® App.
4. Alexa App and account.

1. Open the Alexa App on your phone and select the main menu on the bottom right corner of the screen.

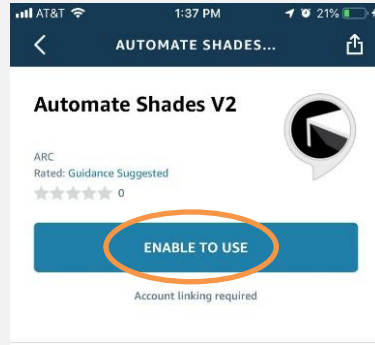

2. Search "Automate Shades V2" in the Skill search bar at the top of the screen.

SUPPORT RESOURCES: For further assistance, contact your retailer, or visit our website at [RowleyCompany.com/R-TEC-Automation-Education](http://RowleyCompany.com/R-TEC-Automation-Education)

3. "Automate Shades V2" skill will appear in the results menu. Select it.

Enter the email and password associated with your R-TEC Automation® App you would like to link.

4. You will now be prompted to discover your shades. Click "Discover Devices".

Click in "Devices" and "Scenes" and all the preconfigured scenes configured in your R-TEC Automation® App will now appear here

5. Test the communication Simply say:

"Alexa, Open Bottom-Up Roller Shade.

"Alexa, Close "Roman" Shade".

"Alexa, turn on Good Morning".

"Alexa close the Master Bedroom a little bit"

"Alexa, set Bedroom Shade to 22%".

TIPS:

Alexa responds to names created in the R-TEC Automation® App. Consider using "one" when numbering shades instead of "1". Avoid using all special characters like % and numbers.

If you have changed the name of your shade or scene in your R-TEC Automation® App, please ensure you force close the R-TEC Automation® App, then reopen the R-TEC Automation® App. Only then can you rediscover the devices and scenes in your Alexa App.
